

IT Research Firm positions Utimaco in the Leader's Quadrant for Securing Mobile Data

- Evaluation Based on Completeness of Vision and Ability to Execute

Oberursel, July 27th 2005 - Utimaco Safeware AG a world-wide leader in securing mobile data, has been placed by Gartner in the Leader's Quadrant in a report on mobile data protection solutions*.

In this year's 'Magic Quadrant' study, Gartner, the world-wide leading IT analyst, evaluates the providers of mobile data protection solutions on the basis of their 'Ability to Execute' and 'Completeness of Vision'.

"We believe Utimaco's position in the Leader Quadrant in the 'Magic Quadrant' is confirmation that our security solutions for mobile computing are exactly what the market wants", said Martin Wülfert, Utimaco's CEO. "The evaluation for our product strategy shows that we are also set for success in the long term with our innovations."

Gartner considers security for mobile data as essential for protecting privacy and for performing audits securely. According to Gartner, the market for security solutions for mobile personal devices is growing strongly.

*) According to Gartner, Inc., leaders are vendors that are performing well today, have a clear vision of market direction and are actively building competencies to sustain their leadership position in the market.

Utimaco Safeware AG is one of the leading producers of professional IT security solutions. The security technology and solutions developed by Utimaco protect the electronic data of companies and government bodies against unauthorized access and guarantee that business processes and administrative procedures in the electronic world are binding and confidential. Utimaco Safeware's Personal Device Security division supplies technologies and solutions for mobile security in the areas of high-level authentication including biometric techniques, encryption and integrity checks. Its products and solutions secure data in terminal server and Citrix environments, on the PC, notebook and PDA at the workplace, and on the move. Utimaco Safeware's Transaction Security division specializes in security solutions for e-business, e-government and e-payment based on its own technologies (telecommunications management systems, hardware security modules, gateways for e-mail security, authentication and digital signatures, Public Key Infrastructure (PKI), and PKI-enabled applications).
